Universal product suitable to be used with flat microfibers and wet mopping system based either on pre-soaking or soaking "on demand" on the trolley or a system with wringer (allowed for specific needs)

ECO-FRIENDLY PRODUCT

Product made of separable materials and, consequently, recyclable at the end of its life. Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Manufactured of high-quality material: resistant to impact and frequent use
- Universal wet mopping system used by operators with different approaches, who have the possibility to work with their favourite method (strap tape system, pockets, flaps, pockets and flaps) by means of one ergonomic, hygienic and handy single product
- Quick and easy fixing and release of the mop: it assures a considerable working time reduction and less effort in comparison with traditional cleaning systems
- 100% touch-free system: no use of hands while fixing and releasing the mop, avoiding the risk of cross contamination
- Highest ergonomics: the operator always works in a maximum ergonomics without bending or assuming a wrong posture
- Lock System allows to block the side movements of the mop holder and it guarantees the maximum adherence to vertical surfaces for better cleaning results. This system can be switched on and off by simply pushing up or down its small lever (locking device) with one's foot, without the use of one's hands and without bending any more
- Universal screw that allows the use of any kind of handles with diameter from 20 to 24 mm
